

Soldering Station 936A

Automatic

Sturdy

Easy to
Read

Accurate

Safety

High
quality

1 Year
Warranty

Product Features

- Microprocessor controlled ESD Safe
- Best quality heating element is adopted to advance technology, to make long life
- Heating element used to low DC Power supply to ensure ESD Safe
- Heating element use to main power is completely isolated power grid.
- Handle is light, enabling to work for long hours comfortably.
- Adjust temperature control with lock/set screw.

About The Product

Beetech 936A Soldering Station is a popular and widely used model. It is precise, stable and heats instantly. It has a light handle and hence is suitable for long time use without any discomfort. The temperature of this soldering station is controlled by a sensor. Beetech 936A is widely used in electrical repair shops, electronic laboratories and in industries. It is ESD Safe..

Specifications

Model	936A
Input voltage	AC 200V – 240V ± 10% 50Hz
Output Voltage	AC 24V
Power consumption	60W
Temperature range	200°C-480°C / 392°F-896°F
Standard Tip	900 M-T-B
Tip to ground potential	<0.5mV
Dimensions	120 (W) X 93 (H) X 70 (D)
Weight	1.58 Kg
