

DIGITAL MOISTURE METER B-M2

- WOOD / TIMBER
- PAPER / CARDBOARD
- CONCRETE / MORTAR
- BUILDING MATERIALS

Features

- Big LCD display with backlight.
- Replaceable electrode pins .
- Various materials measurement.
- Analog bar and digital display values at same time.
- Selectable measurement for wood or other building material.
- Simultaneous measurement of moisture & temperature

Description

Beetech B-M2 is a professional moisture instrument designed to check moisture in wood, building materials, paper, cardboard and hardened materials like plaster, concrete and mortar. It operates on the principle of electrical impedance. It adopts advanced single chip micro-computer technology and integrates characteristics of four materials to correct the calculation and determining the moisture accurately. It is a Non-destructive measuring method, does not affect the measured object. It is widely used by Building inspectors, Carpenters, hobbyist, Wood workers, Architects, Inspection team and many more.

SPECIFICATIONS

Electrode Length	10MM
Electrodes	Replaceable
Moisture Range	Wood : 5 ~ 70% RH , Building Material : 0.1~2.4% RH
Temperature Range	-20 ~ 70°C / -4 ~ 122°F
Moisture Accuracy	Wood : 5 ~ 30% : ±1% ; 30 ~ 60% : ±2% ; 60 ~ 70% : ±4% Other: ±5%
Temperature Accuracy	-20 ~ 70°C / -4 ~ 158°F : ±1.5°C / 2.7°F
Auto Power Off	After 120 seconds of inactivity
Operating Ambient Temperature	0 ~ 50°C/32~122°F
Operating Ambient Humidity	0 ~ 85% RH
Dimensions	163 X 62 X 30 mm
Weight	153 g
Accessories	User Manual , 9V Battery, Pouch with Box packing
